

1 Suppose that in a C program snippet, followings statements are used. i) sizeof(int); ii) sizeof(int*); iii) sizeof(int)

A. Only i) would compile successfully and it would return size as 4 B. i), ii) and iii) would compile successfully and

C. i), ii) and iii) would compile successfully but the size of each would be different and would be decided at run time.

2 Choose the correct statement w.r.t. above C program.

A. malloc() for ppInt1 and ppInt2 isn't correct. It'll give compile time error. B. malloc() for ppInt1 and ppInt2

C. malloc() for ppInt1 and ppInt2 isn't correct. It'll give compile time error. B. No issue with any of the malloc()
